

```
version: 1
frontend:
  phases:
    preBuild:
      commands:
        - cd features/frontend/myreactapp
        - npm install
    build:
      commands:
        - npm run build
  artifacts:
    baseDirectory: features/frontend/myreactapp/build
    files:
      - '**/*'
  cache:
    paths:
      - node_modules/**/*
```

NOTE: I have this deployed in my own fork of the github repo. Someone (or myself will merge it into one of the branches of the main one)
